

## V Scooty

VOOT has launched a dry mopping & sweeping Machine **V-Scooty** for large indoor areas. The **V-Scooty** is extremely easy to use and its ergonomic design provides great operator comfort. This machine is equipped at the front with a large dry mop 1200mm wide, which is used to sweep dusty areas or push light waste objects like paper or cloth pieces in large areas where manual sweeping is too tedious and cumbersome. The operator can push the dust or waste in a designated area from where it is easy to be collected and disposed with minimal effort instead of manually sweeping the entire floor. The mopping V-Scooty can mop the floors more than 10 times faster than manual mopping.

### 1 Easy to Operate

- Very Easy to operate and maintain.
- Highly efficient resulting in saving labour, time and cost.

### 2 Brushless motor & battery

- Brushless motor for long life and no maintenance.
- Sealed and maintenance free batteries.

### 3 Tyres

- Air filled tyres for operate comfort and better suspension.
- Ideal for daily mopping and cleaning of large indoor floors.

## V Scooty

- Robust and reliable
- Powerful and versatile
- Easy operation
